PULLUP®

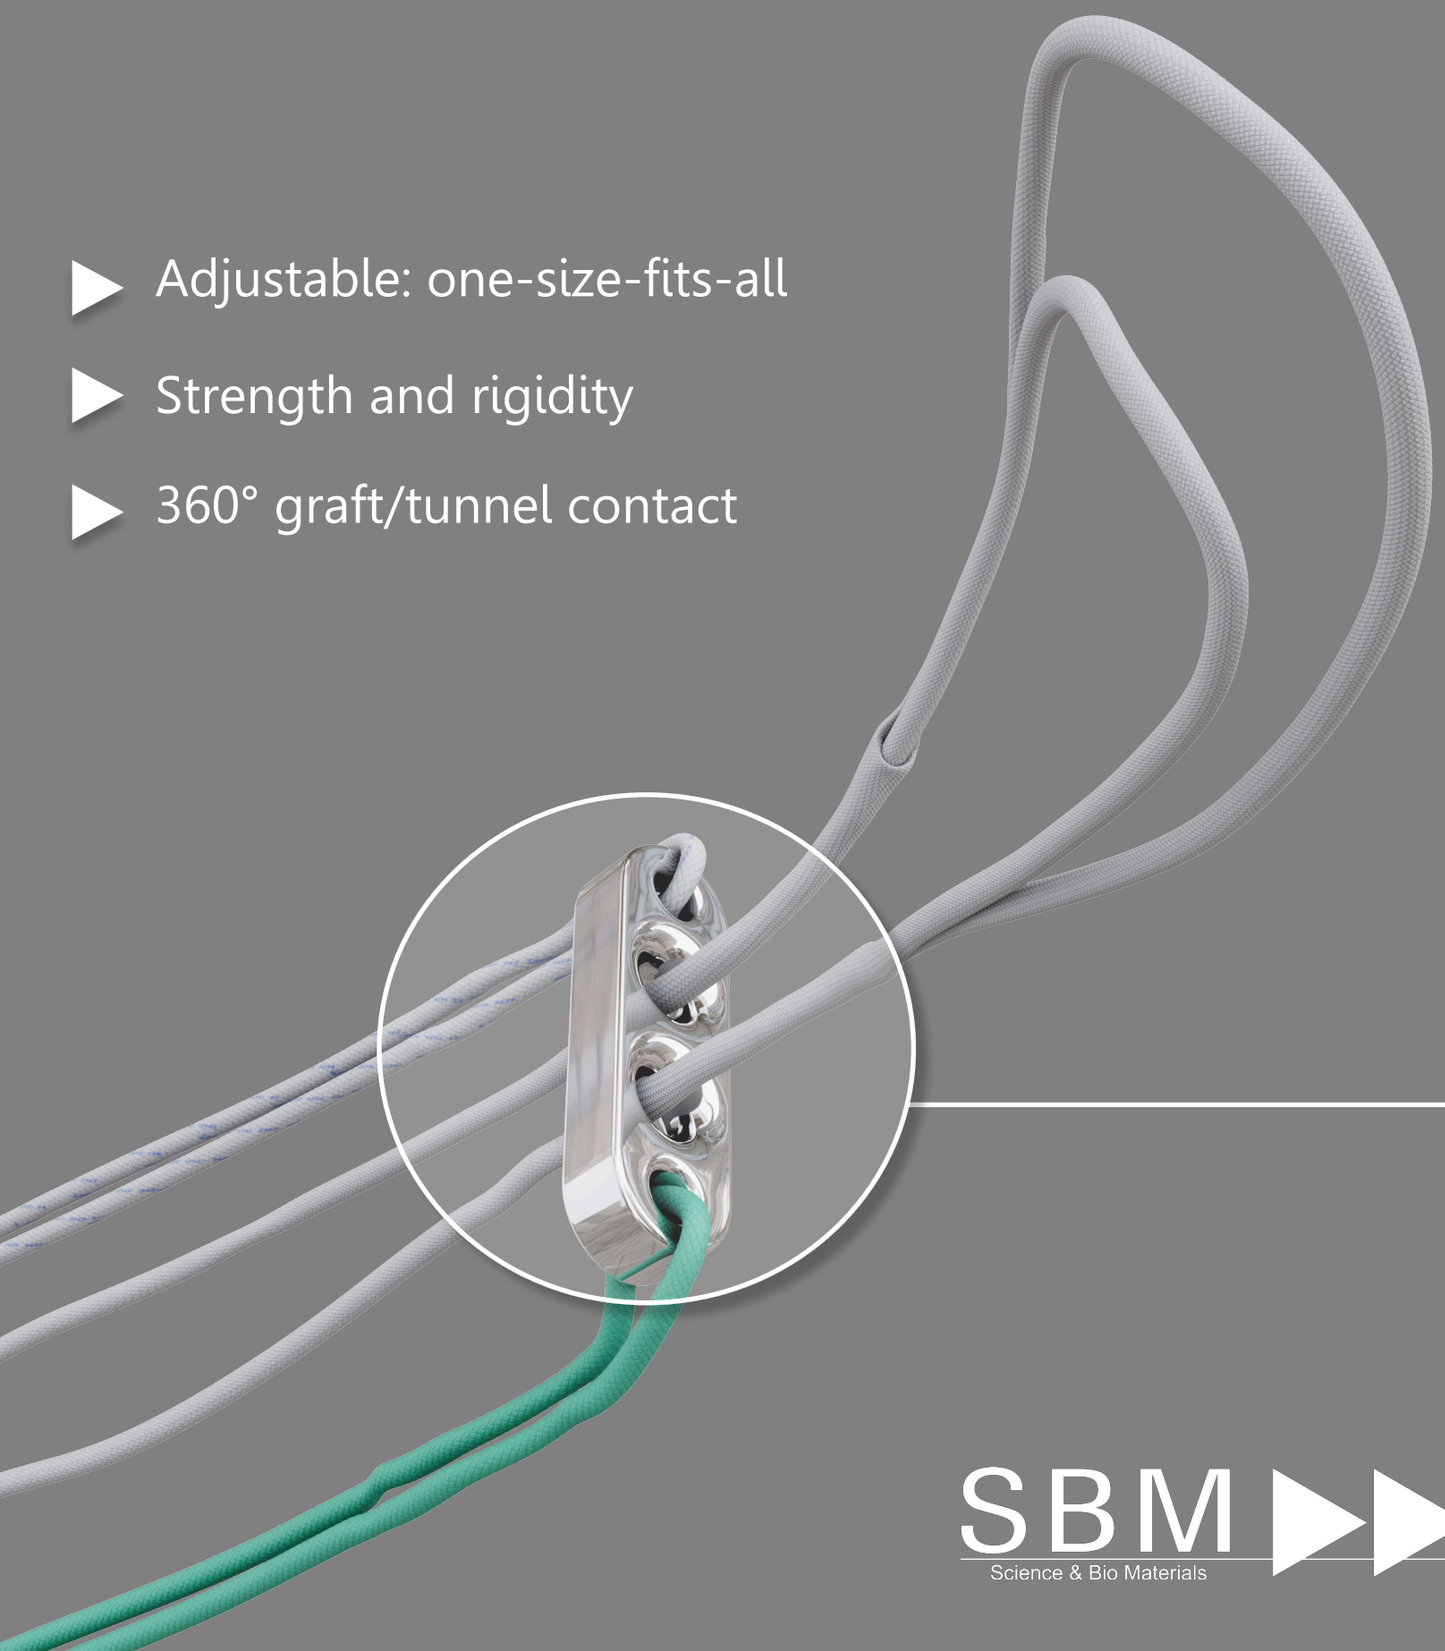

ACL RECONSTRUCTION

KNEE RANGE

Adjustable cortical fixation system for soft tissue graft

Titanium button-plate, and adjustable non absorbable braided loop.
The system is preloaded with traction and flip threads

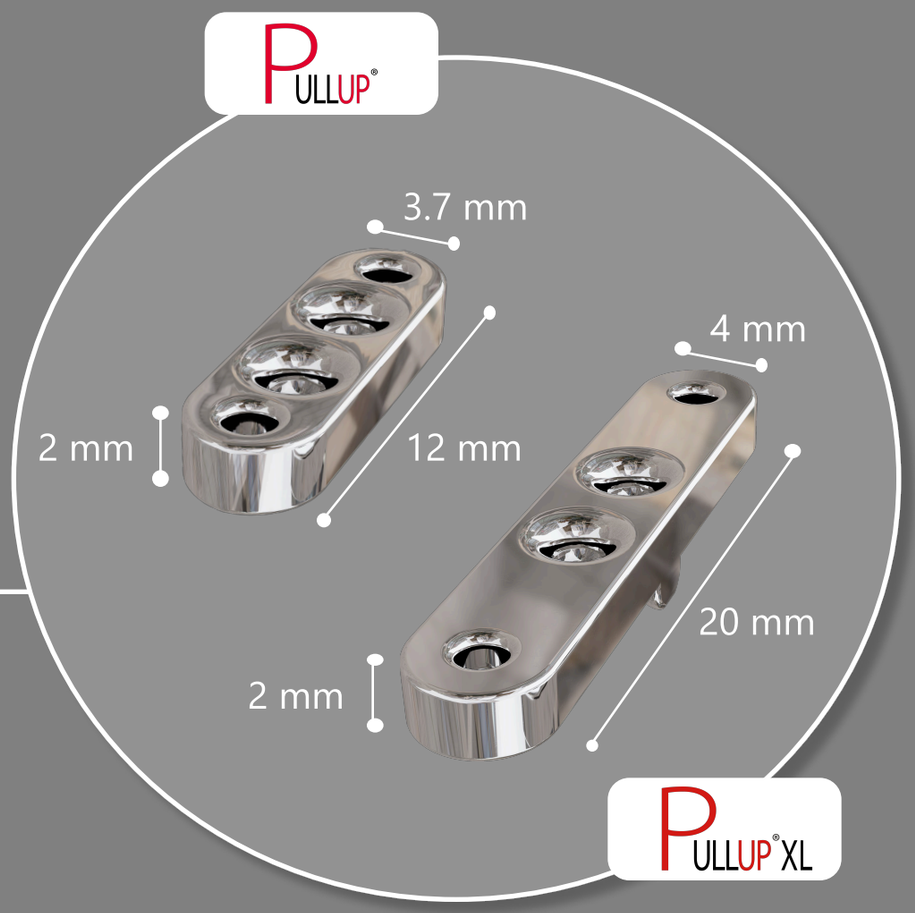

- Adjustable: one-size-fits-all
- Strength and rigidity
- 360° graft/tunnel contact

Available in 2 versions

For cortical tunnel Ø 4.5 mm

PULLUP®

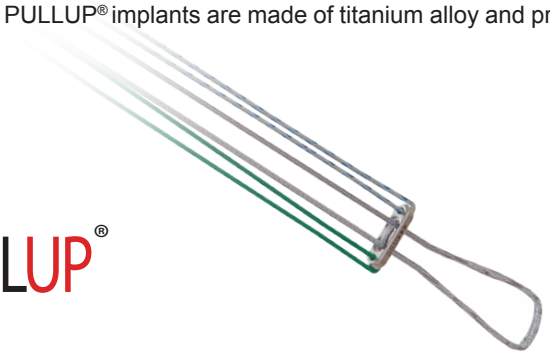

PULLUP® XL

For cortical tunnel Ø 5 to 10 mm

Science & Bio Materials

PULLUP® adjustable juxtacortical fixation system

The PULLUP® system provides simplicity and reproducibility in ACL reconstruction procedures thanks to its unique adjustable size during surgery and to an instrumentation compatible with single semitendinosus tendon harvest as well as classic soft tissue transplants. PULLUP® implants are made of titanium alloy and premounted sutures, available in two designs depending on the tunnel diameter.

Pullup system:

PULLUP for ø 4.5 mm cortical tunnel - PULLU01201
PULLUP XL for ø 5 to 10 mm cortical tunnel - PULXL01202

PULLUP® instruments

ø 4.5 mm cannulated drill bit
PULL000255

Cutting pliers
PULL000219

GraftTech® preparation station

The GraftTech® preparation station enables to facilitate soft tissue graft preparation, particularly for PULLUP® constructs. It is composed of a regular base and optionnal add-ons depending of the type of graft to be prepared.

GraftTech® preparation station base instrumentation set
(including stainless steel basket and lid)

PULLTAB000

Options for GraftTech® preparation station

Bulldog pliers FB421R

Mounting key - hex size 4 mm CLE9006004

Hook for GraftTech® holder PULL00E217
Hook for GraftTech® slider PULL00F217

Bracket for GraftTech® holder PULL00G217
Bracket for GraftTech® slider PULL00H217

Pull, flip, adjust.

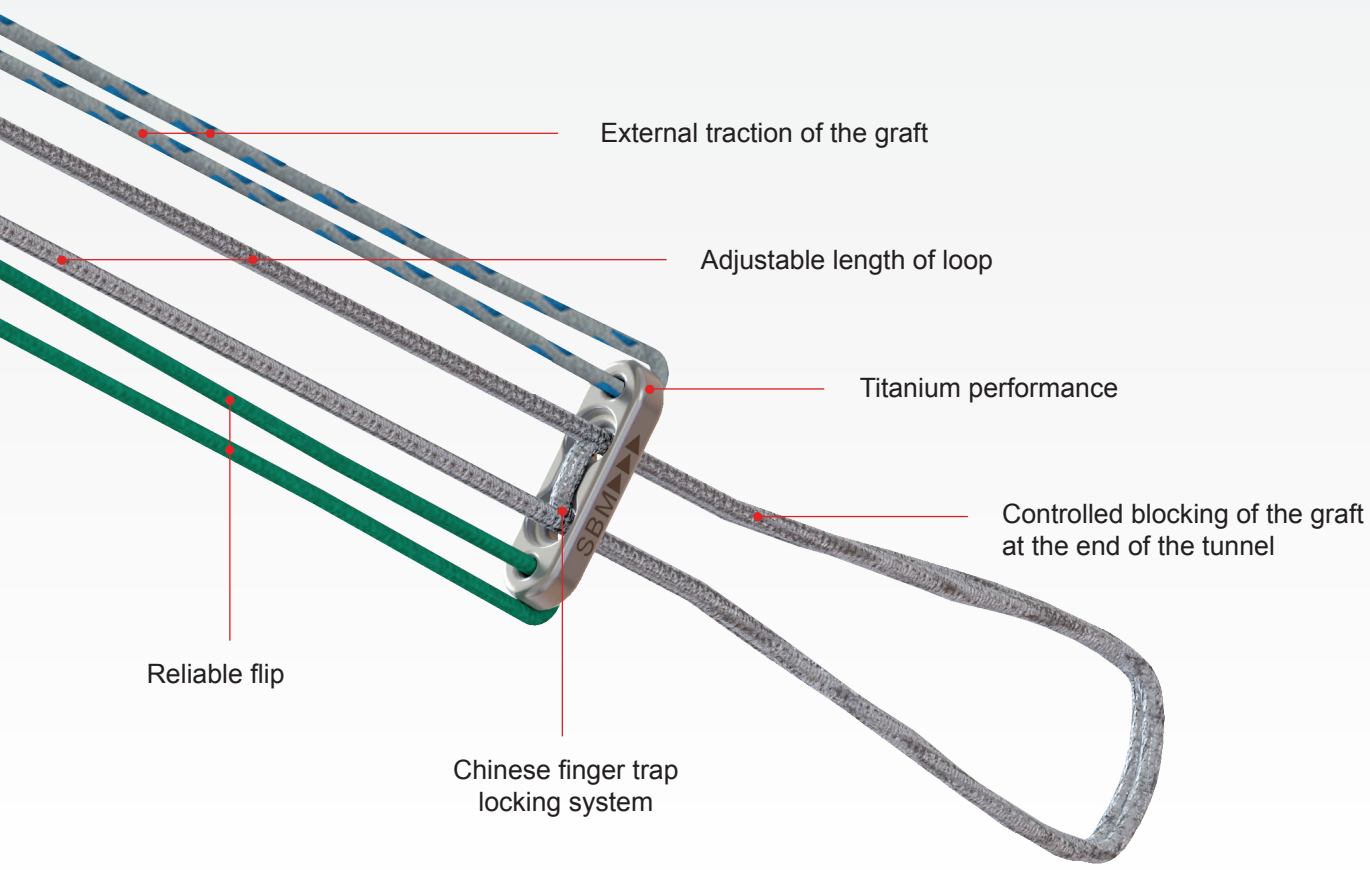

PULLUP®

Solution for fixation of knee ligament reconstructions:

Reproducible
Controlled locking at blind tunnel endstop, conservation of bone stock.

Simple
No pre-op planning of tunnel length, perioperative adjustment.

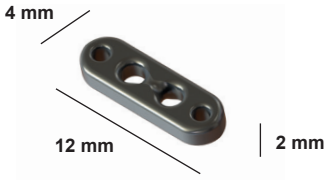

Reliable
Stable locking system, renowned materials.

A system that can be adapted to your surgical approach

The PULLUP® system is available in two versions:

PULLUP®

For cortical tunnels with ø 4.5 mm

PULLUP® XL

For cortical tunnels with ø from 5 to 10 mm
